Tag Stock

SU - this stock is sometimes referred to as a Sulfate Stock, uncoated white or manila.
CSU - starts as an uncoated white stock and then coated with color.

Blank Tags

High quality tags perfect for many different marking uses. 10 pt. SU, 13 pt. SU, and CSU grades available in a variety of standard sizes. Colored and fluorescent tags are available in 13 pt. CSU and are ideal for color coding and easy identification. Many tags are stocked with strings or wires attached. Blank tag colors and descriptions are listed on pages 6-8. All tags are packed in master shipping containers. See price list for additional details. Samples for true colors available upon request, contact ssp@ssptag.com.

Tyvek® Tags

Manufactured from Spunbonded Olefin, this is our toughest, most durable tag available. Because it is tear resistant, even when wet, and resists chemicals and mildew, this tag is an excellent choice for tough environments. Size and descriptions are listed on page 9.

Vinyl Tags

Produced on 10 Mil calendared vinyl, these tags provide a smooth writing surface on a durable tag. Moisture and oil resistant, high puncture and tear strength. Size and descriptions are listed on page 9.

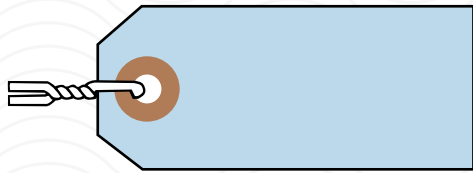

Inventory Tags

The industry's most complete selection of one-part, two-part and three-part manifold inventory tags aid in keeping inventory in check. The tags are constructed of 10 pt. tag stock, carbon interleaf and bonds, or carbonless stocks. See pages 10-14 for descriptions.

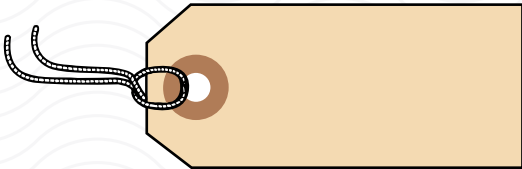

Vertical Market/Specialty Tags
